Gentlemen:

Infotronic Systems Inc., for the third consecutive year, will exhibit at the American Management Association's Education and Training Equipment Exposition. As before, the exposition and concurrent conference will be held in New York City at the Americana Hotel.

Many of you have attended these conferences before, and may plan to do so again this year. For the convenience of this member, as well as those who have never attended, we enclose a rapid registration form and an information booklet.

The American Management Association has copies available of the conference program which they will be pleased to send you upon request. The address is 135 West 40th St., New York, N.Y. 10020.

Infotronic Systems Inc., the educational affiliate of Gotham Audio Corporation, will be found in booth 513, and it will be our pleasure to greet you and demonstrate the Mark II Information Rate Changer for you.

Recently prepared material is enclosed describing the Mark II Information Rate Changer in its latest and current execution.

We earnestly hope you will find time to visit us in booth 513 to hear and see for yourself how effective the Mark II is for the simple and direct production of compressed (or expanded) speech.

Sincerely yours,
